

Hello,

You need is information not emotions for passing laws. So what are you doing what are you doing? You state facts that are either 20 years old or facts that you twist to your own liking, false truths. In other words LIES. And all this is spread through your media, confusing the people who don't know any better. (Yes I said your media, seems the news has also lost touch with itself and is fully biased, its shameful.) Which only means your proposals (over a 130 of them) have nothing to do with truth, emotions, or the children of Newton. Not even the criminals, the mentally ill, or in reducing the firearm crimes here in CT or around the country. If it was then all of these would have been reasonable / sensible proposals. It has been proven in many major populaces and through out history, that more firearm laws only equates to more crime, killings, murders, rape, and acts against the law abiding defenseless.

Time to leave the families alone to rest and morn, not use them for your own political agenda or other groups to rally support. They need time for healing not use them to focus their anger in the wrong direction. The anger here should be at the person who did this despicable heinous crime but they cant because he even took that away from them. Maybe even focus their anger

at you, the politicians, for allowing these firearm free zones to exist, for not allowing teachers to carry if they have their permit and wanted too, for not having a police officer or security guard there at these most vital places. Good to see that our politicians have security guards though. These families need time to heal and you are not doing that one bit, but only to further their pain and use it against the people of CT, against the Constitution and the People of America. This is uncalled for and its disgusting.

This in fact is about restricting the Rights of the People, their Liberty, their Freedom, and most of all their Safety. Let me ask you all...When another mass shooting happens, anywhere, can we all say that you

the politicians and the people standing behind you have blood on their hands? Give up your preconceived ideas of rationality take off those kaleidoscope goggles, and maybe the real Truth and Rationality of this issue will surface. Didn't your parents ever tell you to wait until

you know exactly what went on before acting before making a decision?

Seems

with your actions these past few months your parents did not or you were running around, stomping your feet, eyes closed, with hands over your ears yelling "la la la la I can't hear you". This is exactly what you are doing now all because your agenda is to fully remove all firearms from the people of CT, in unwilling acknowledgment that crime, murders, rapes, etc will not sky rocket.

There is a way to help reduce the firearm crimes and mass shootings. You refuse to do anything about it but instead to restrict or remove rights, freedoms and safety from people. In turn making them more of a target making them another number on a static chart. Way to go. Its simple, the most defenseless people right now are our teachers and children. Having these no-firearm zones around the state and forbidding teachers to carry (even if they are licensed) is one problem. Teachers are and will be the first responders in any violent school incident, even if a police officer or security officer is on the site. Criminals and psychos love all the firearm-free zones because they know that the occupants are powerless to stop them. How can we as a country be so cruel as to make our precious children sitting ducks for these criminals? We must protect our children and give trained adults the means to do so.

Put a police officer in every school or a security guard, increase the penalties and fines for a firearm related offense and ENFORCE THEM, help the mentally ill get more treatment, hire more police officers, and look more into the prescribed drugs that are being given to the mentally ill. These will help and these are no "feel good" proposals that are only there to put the American public in bondage and leaving them - the innocent - defenseless.

Mr. Robert D. Tworkowski, Jr.
